Candela GentleMax Pro Plus

2026 dual-wavelength medical-grade laser technology.

01 755 nm Alexandrite

Often selected for lighter skin tones and suitable hair types. Fast, precise energy for hair reduction and pigment-focused treatments after assessment.

02 1064 nm Nd:YAG

A deeper wavelength used for darker skin tones and vascular targets. Settings are customized by assessment and patch test.

03 Dynamic Cooling Device

Candela DCD cooling delivers a burst of cryogen before each pulse to support comfort and protect the upper skin surface.

04 Why It Matters

One platform supports hair removal, rejuvenation, pigmentation, rosacea, spider veins, cherry angiomas, and razor bumps.

[BOOK A FREE CONSULTATION](#)

Safe for Every Skin Tone

Dual wavelengths support Fitzpatrick I to VI treatment pathways.

The Fitzpatrick Scale

755 NM ALEXANDRITE

Lighter Tones

Fast and precise for many lighter skin tones and suitable hair colors. Suitability is still confirmed individually.

1064 NM ND:YAG

Deeper Tones

Penetrates deeper and is commonly selected for darker tones when clinically appropriate.

ASSESSMENT FIRST

Safety is Personal

Skin type, recent sun exposure, medications, medical history, hair color, and treatment area all affect suitability. Apex confirms your plan during consultation and may perform a patch test before treatment.

NO PRESSURE

Bring Questions

Ask about timing, packages, comfort, suitability, and realistic expectations.

Frequently Asked Questions

Clear answers to the questions Apex clients ask most often.

01 Does laser hurt?

Sensation varies. Many clients compare pulses to a quick elastic snap. DCD cooling supports comfort.

02 How many sessions will I need?

Treatment response varies. Hair removal usually needs a series because hair grows in cycles.

03 Is it safe for darker skin tones?

The 1064 nm Nd:YAG pathway supports deeper tones when clinically appropriate and assessed.

04 Are prices before tax?

Yes. Published prices are before Nova Scotia HST.

05 Can discounts stack with packages?

No. Packages are already the savings and cannot be combined with other promotions.

06 Do I need a patch test?

A patch test may be required depending on assessment, skin, treatment area, and clinical judgment.

\$30 for You, \$30 for Your Friend

Their first visit can save up to 15%. Their second brings \$30. Your thank-you is \$30 too.

Step 1

Refer a friend to Apex Wellness Centre

Step 2

They may stack both reception offers for up to 15% off their first eligible treatment

Step 3

After a paid first treatment of \$60 or more before tax, you get \$30 and they get \$30 for their second

Program Details

A wonderful first visit: Your friend may combine Reception Offer 1 and Reception Offer 2 on their first eligible treatment for up to 15% off. Each offer is available once per patient and no other promotion may be added to that session.

Your \$30 thank-you: After your friend completes and pays for a qualifying first treatment valued at \$60 or more before tax, you receive \$30 in clinic credit.

Their \$30 second-visit reward: Your friend receives \$30 in clinic credit for their second eligible treatment. Referral credit cannot be combined with another promotion.

Clinic credits apply to eligible treatments only and cannot be used for retail products, gift cards, memberships, or packages.

No limit on how many people you can refer. The more you share, the more you earn.

The new client must mention the referral or use a referral code when booking and before payment.

Other Current Offers

Reception Offers: Offer 1 is 10% off and Offer 2 is 5% off, each once per patient. They may be combined for up to 15% off, but not with another promotion in the same session.

First Responders: Police, firefighters, nurses, doctors, and healthcare staff receive an ongoing 10% discount. Present a valid work ID, professional card, or badge.

Student Pricing: Upper Lip + Chin + Underarms for \$109 with valid student ID.
